CYBERSECURITY
REACH FOUNDATION

SUPPORT THE WORK · 2026

VOLUNTEER-RUN · 501(C)(3) NONPROFIT

We love this work. We can't keep paying for it alone.

We're volunteers who investigate scams and warn people.
Nobody pays us. Right now, we pay to do it.

200+ real scams, taken apart and explained at scamarchive.org. Every tile is one of them.

$0
paid in salaries. Everyone here is a volunteer.

$400–$800
a month to run our servers, data and tools.

100%
of it paid out of our own pockets, so far.

What your gift keeps running

A scam arrives
30,000+ people a month use our free tools.

We investigate
Volunteers trace the sites and setup behind it.

We warn people
8 million impressions on NYC street kiosks.

We report it
So hosts can take scam sites down.

We run events
Scam Search Parties: live scam investigations, together.

We train volunteers
Hands-on experience and training on real cases.

What it costs us today

Investigation server	**$88** / mo
Data warehouse	**$77** / mo
Honeypot	**$29** / mo
Private network (VPN)	**$5** / mo
AI tools for volunteers	**$8** each / mo
Mailing tools	**$40–$100** / mo
Total, all costs	**$400–$800** / mo

Server lines from our Sept 2026 invoice. Email and Slack are free. The total includes Zoom and domains.

What we can't afford to start

Safe event desktops — **$100–$200** / mo
Nobody's own computer at risk at our live events.

More honeypots — **$10–$20** each / mo
Decoy servers that show who attacks, and how.

More volunteers — **$8** each / mo
Tools for one more person learning to fight scams.

HELP US KEEP GOING

cybersecurityreach.org/donate

Scan the code or type the address. Monthly gifts help most.
Old company laptops, hosting or services to give? **info@cybersecurityreach.org**
