PHONE AND TEXT SCAMS

Never share a code.

If a code arrives by text and someone asks you to read it out, that person is a scammer.

THIS IS TRUE EVEN WHEN

01 They say they are from your bank

02 They say they are the police

03 They know your name and address

04 They say your money is in danger

> **Hang up. Then call the company back on the number on your card, your statement, or their app.**
